SKILLS

- Open-minded
- Teamwork
- Problem solving
- Adaptability
- Communication

LANGUAGES

- English: Advanced
- Farsi: Native speaker
- Danish: In process of learning

HOBBIES

- Reading
- Socializing and traveling

NILOUFAR KHAEFI

ABOUT ME

I was born in 1997 in Iran. I came to Denmark in 2022 because of my husband's job. I start studying frontend development since October 2022 and recently I finished a JavaScript course at ReDi School.

EDUCATION

Course in Bootstrap from next1code - 2023

In the course, I learned about Utilities, components, APIs, layout, etc. [Read more about the course here.](#)

Course in React Framework from next1code - 2023

In this course, I learned about: components, forms, events, conditional rendering, and hooks (useEffect, useState, ...).

Javascript course at ReDi School - 2023

In Redi School, I have learned the fundamentals of JavaScript with regard to terminology and hands-on skills. At the end of the semester, I was able to code a project myself in JavaScript. My learning targets include; the theory of HTML and CSS, JS interaction with HTML, basic building blocks, functions, variables, arrays, loops, and objects. We worked in teams and with Scrum Master methodology. We also learned how to work with Github.

Bachelor of textile engineering, at The University of Technology in Isfahan, Iran - 2017-2021

Before moving to DK and deciding to learn to code, I took a bachelor's degree (4.5 years) in textile engineering in Iran. The studies included workshops on spinning, knitting, dyeing, printing, and finishing fabrics. It also included a 3 months internship. Additionally, we had courses in Economics and Entrepreneurship. Besides learning the courses, the education left me very oriented to detail in the products I deliver.
